

Quick4® Equalizer 24 Low Profile Chambers

Designed to provide exceptional strength when used in trench or bed applications. The chamber's unique features, which include a low profile design, make it perfect for shallow placement applications. The Quick4 Equalizer 24 LP Chamber is ideal for straight or curved systems. The low profile endcap offers a simple overlap design for easy installation.

Quick4 Equalizer 24 Low Profile

Benefits

- 8" chamber height allows shallow installations with 4" of cover
- Advanced contouring connections swivel up to 15°, right or left
- Reinforced ribs provide increased structural capability and durability
- Compact nesting provides more trench length in an equivalent stack height
- Four-foot chambers are easy to handle and install
- Certified by the International Association of Plumbing and Mechanical Officials (IAPMO)

MultiPort Endcap Benefits:

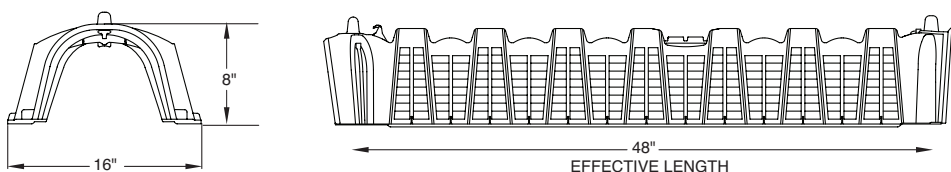

- Flat end cap construction offers greater stability
- Simple overlap design for easy installation
- Universal endcap fits on either side of the chamber
